GemBox Support Center

Support for cross axis in charts New

- Chris Roffe
- **Forum name:** #GemBox.Spreadsheet Feature Request

I want to reverse the order of the bars compared to the original data. This can be solved in Excel by setting:

- Format Axis > Categories in reverse order
- Format Axis > Horizontal axis crosses at maximum category

For the first option, I can use ChartAxis.ReverseOrder property, but there is no cross-axis property.
Please could you add this functionality to GemBox.Spreadsheet.
