Quote request

Mario - GemBox - 2016-12-19 - 4 Comments - in Licensing questions

To generate a quote use [this link](#) in order to generate a purchase order.

Purchase order can be used as a quote or a proforma invoice.

In case of a **Bank Wire Transfer** payment proceed with the order by clicking "Pay Now" and by choosing the "Wire Transfer" payment option in the next form.

This will result in generating an invoice which contains our bank account information and bank transfer instructions.
