Add file type autodetect from stream Completed

- Ivan Kudyk
- **Forum name:** #GemBox.Spreadsheet Feature Request

I write to you to ask if it is possible to add the overload of Load() method described here:

[https://www.gemboxsoftware.com/spreadsheet/docs/GemBox.Spreadsheet.ExcelFile.html#GemBox\\_Spreadsheet\\_ExcelFile\\_Load](https://www.gemboxsoftware.com/spreadsheet/docs/GemBox.Spreadsheet.ExcelFile.html#GemBox_Spreadsheet_ExcelFile_Load)

that would take Stream as input, without LoadOptions.

Since you can auto-detect file type for a file under a particular path String overload, I wonder if you could provide a similar service for Stream overload in a reasonable time. The same counts for Document, for which I have a purchased license, too.

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Spreadsheet.

Regards,  
Mario
