GemBox Support Center

Add support for creating contacts New

- R Robert
- **Forum name:** #GemBox.Email Feature Request

Is it possible to create contacts with your product? I found the ability to crate a "calendar event".

Hi, Currently, GemBox.Email doesn't have an API for contacts. Can you add more information about your requirement? Are you looking to create an Outlook Contact, and do you want to save it to file (like VCard or MSG format)? Regards, Mario GemBox d.o.o.
