GemBox Support Center

Add support for PDF Digital Signature Completed

- MG Mario - GemBox
- **Forum name:** #GemBox.Pdf Feature Request

Currently other GemBox components (except GemBox.Pdf) have a support for digitally signed PDF files, see:

- GemBox.Spreadsheet's PDF Digital Signature example
- GemBox.Document's PDF Digital Signature example
- GemBox.Presentation's PDF Digital Signature example

This feature request is for adding the support for PDF Digital Signature in GemBox.Pdf as well, **so that input PDF files can be saved as digitally signed output PDF files**.

Hi, Yes, this feature will soon be available, within a week or two. We are finalizing its release and the examples (for both "Digital Signature" and "Encryption" features). Regards, Mario
