GemBox Support Center

Add svg image to document then export to pdf Completed

- JN Joey Nguyen
- **Forum name:** #GemBox.Document Feature Request

Hi GemBox,

My project required add vector as svg image to pdf file. Look like currently GemBox support png only, will it support on next version ?

Thanks,

Hi, Currently GemBox.Document supports PNG, JPEG, GIF, BMP, TIFF, WMF, and EMF image formats. In the case of WMF and EMF vector image formats, when exporting them to PDF GemBox.Document will convert them to PNG, see the following help page: https://www.gemboxsoftware.com/document/docs/GemBox.Document.PdfSaveOptions.html#GemBox_Document_PdfSaveOptions_MetafileScaleFactor Regarding the SVG, yes this format is currently not supported. We currently do not have plans for it, so at the moment it will have to wait until its priority is increased (more user requests). Regards, Mario
