GemBox Support Center

API support for Auto Hyphenation feature Completed

- SR Stephan Richter
- **Forum name:** #GemBox.Document Feature Request

GemBox.Document currently does not have an API support for Auto Hyphenation feature.
This feature is currently supported only through a preservation, when loading from an input DOCX file and saving to an output DOCX file (the same format) this information is preserved.

It would be great if hyphenation also works when exporting to PDF.
