Auto Fit Column Width in Pivot Table Completed

- WP Woraphot Preecharpechacupta
- **Forum name:** #GemBox.Spreadsheet Feature Request

There is no auto fit column width for pivot table in the latest version.

We have this issue on set column width in Pivot Table, our application generates the excel report with pivot summary for our management team.

So please help to add the auto fit column width feature in the Pivot table.

Thank you in advance.

Regards,
