Better support for watermarks Completed

- Mario at GemBox
- **Forum name:** #GemBox.Document Feature Request

Request for implementing API support for adding a watermark.

GemBox.Document supports Watermarks only through the preservation in DOCX file format, but they are not directly supported by GemBox.Document API.

A "real" watermark option (like merge another PDF as background) would be welcome!

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Document.

Regards,

Mario
