GemBox Support Center

Export text in a structural manner Completed

- KI Khairul Ikhwan
- **Forum name:** #GemBox.Pdf Feature Request

I have a report in PDF file that I would like to retrieve based on the coordinate as it would be easier to group those data according to the report section the data belongs to.

The sample file is as attached. For example, under report section WELL INFO, I would be able to extract and group the data:
1. Block: Kinabalu
2. Supervisor: Fayadh Ibrahim
3. Engineer: Danny Chew / Arif Zainal
4. Superintendent: Ling Mee Loong
