Gembox.Document for Java Declined

- CF Claudio Di Flumeri
- **Forum name:** #GemBox.Document Feature Request

Hello,

I'd like to know if you have in program to make a Java version of your library Gembox.Document, just like you have done for the Spreadsheet product.

Thank you!

Hi, Currently, we don't have plans for GemBox.Document for Java. Note, if/when more requests are made for it we will investigate this requirement. Regards, Mario

Hi, We have recently retired support for Java, you can read more on: https://www.gemboxsoftware.com/news/gembox-spreadsheet-for-java-retirement So I'm afraid that we won't be making GemBox.Document for Java. Regards, Mario
