GemBox Support Center

Microsoft Graph support Completed

- TM Todd Michael
- **Forum name:** #GemBox.Email Feature Request

EWS and basic SMTP are deprecated and being removed from Microsoft services.

Is there any intention to use Microsoft Graph libraries internally as a substitute in GemBox.Email?

Wrapping Microsoft.Graph would be useful to improve upon its convoluted processes (especially for email attachments).

Many thanks

Todd

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Email.

Regards,

Mario
