GemBox Support Center

Please update your dependencies Completed

- JB Joel Brage
- **Forum name:** #GemBox.Document Feature Request

Currently you are referencing >= sixlabors.imagesharp.drawing.1.0.0.nupkg
Which in turn reference >= sixlabors.imagesharp.2.1.9.nupkg
Which has a security issue.
sixlabors.imagesharp.2.1.10.nupkg fixes that. But since you have >= any code analyzer will complain.

Hi,

This issue has been resolved with the latest versions of GemBox.Document.

Regards,

Mario
