Save PDF file with conditionally formatted cells Completed

- Mattia Lanzoni
- **Forum name:** #GemBox.Spreadsheet Feature Request

In my excel file some cells in the H column are conditionally formatted so that the background color of the cell depends on the value of the cell itself.

If i save the file as pdf using GemBox API, the resulting pdf does not show the background color of the conditionally formatted cells in the H column.

I want to test a conditional format against the cell to which it is applied.

In other words, I need to determine whether a conditional format evaluates to true.

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Spreadsheet.

Regards,

Mario
