Save PDF file with conditionally formatted cells Completed

- ML Mattia Lanzoni
- Forum name: #GemBox.Spreadsheet Feature Request

In my excel file some cells in the H column are conditionally formatted so that the background color of the cell depends on the value of the cell itself.

If i save the file as pdf using GemBox API, the resulting pdf does not show the background color of the conditionally formatted cells in the H column.

I want to test a conditional format against the cell to which it is applied. In other words, I need to determine whether a conditional format evaluates to true.
