Setting priority via property (not headers) Completed

- TH Tom Hartland
- **Forum name:** #GemBox.Email Feature Request

Instead of having to set specific headers for message priority (and therefore looking up to double check they're the correct values for all the different headers required) can there be a Priority property with Enum for Low/Normal/High?
If not a priority, a method to SetPriority?

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Email.

Regards,

Mario
