GemBox Support Center

Support for background fill as picture when saving as PDF. Completed

- I Ioshchikhes
- **Forum name:** #GemBox.Document Feature Request

I need a Support for background fill as picture when saving as PDF.

As workaround for new Word documents or templates an image element can be used instead.
However, customers have a large number of existing Word documents that may not be changed.

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Document (see the PictureFillBrush docs page).

Regards,

Mario
