Support for Formula Fields Completed

- Gian Luigi Nava
- **Forum name:** #GemBox.Document Feature Request

When I execute a merge with a document that contains formula fields, this fields are not evaluated and are not visible on the merged doc.

I ask to valuate the formula fields while merging the document, so can I have the result as simple text on the final doc.

Thank you.

Hi,

This feature request has been implemented and is available in the latest versions of GemBox.Document.

Regards,

Mario
