Support for RTL languages in PDF Completed

- Mario - GemBox
- **Forum name:** #GemBox.Document Feature Request

Request for adding a support for RTL languages in PDF files.

GemBox.Document's CharacterFormat.RightToLeft property and ParagraphFormat.RightToLeft property are supported only in DOCX and DOC formats.

See their remarks:

Right to Left direction support is very basic and very very critical as we have clients beyond the geography and they are using Right to Left language.

Hi,

This feature request has been implemented and is available in latest versions of GemBox.Document.

Regards,

Mario
