GemBox Support Center

Support removal (redaction) of information Completed

- **Forum name:** #GemBox.Pdf Feature Request

I'd like to ask for support or redaction, similar to itextpdf.com/itext7/pdfSweep

Sometimes You must remove address information from invoice. Adding rectangle on top isn't an option, because You could still copy paste text and get that data.

Ideally GemBox.Pdf should remove text behind given rectangle and draw new rectangle.
