Update SEQ field without depending on microsoft word Completed

- Dane Kasperczyk
- **Forum name:** #GemBox.Document Feature Request

Add SEQ fields to fields updated without depending on Microsoft Word:

[https://www.gemboxsoftware.com/document/docs/GemBox.Document.PaginatorOptions.html#GemBox\\_Document\\_PaginatorOptions\\_UpdateFields](https://www.gemboxsoftware.com/document/docs/GemBox.Document.PaginatorOptions.html#GemBox_Document_PaginatorOptions_UpdateFields)

SEQ is used with field switches such as counting sequential figures and tables.
